

Hamilton Clinic Directions & Parking

How to find our Hamilton Clinic

Address: 170 Collingwood Street, Hamilton Lake, Hamilton 3204

We are located in a grey two story building call Radnor House near the roundabout where Collingwood Street meets Tristram Street. Some landmarks you may recognise are BP which is diagonally across from our clinic and the big ACC building which is directly opposite our building on Collingwood Street.

Free Parking:

- Three car parks behind the building
- One wheelchair accessible carpark at the front of the building

You can enter our address into your preferred Maps app, however finding the car park at the back of the building can be a little tricky. There is a driveway on Tristram Street and a driveway on Collingwood Street.

Reception

After parking, walk to the front of the building and come in the main door - you will see our sign. Our clinic is located in the downstairs part of the building. When you come inside take a seat in our waiting area and someone in our team will come and greet you.
